Career Objective

Aspiring Software Engineer with strong problem-solving abilities and a passion for developing efficient and scalable applications. Eager to contribute to innovative projects, tackle real-world challenges, collaborate with teams, and continuously enhance my technical and professional skills while delivering high-quality software solutions.

Education

Vignan's Institute of Information Technology, Duvvada 2023–2027
B.Tech – Computer Science and Engineering (Data Science) CGPA: 9.3

Internships

Infosys Springboard GitHub
Full-Stack Developer Intern 24 November 2025 – 30 January 2026

- Contributed to the development of InsurAI, a corporate insurance management platform.
- Developed responsive React components for intuitive and accessible user interfaces.
- Collaborated with team members to implement frontend features and application modules.

Vault of Codes
Web Development Intern 06 May 2025 – 06 June 2025

- Developed responsive web pages using HTML, CSS, and JavaScript for assigned project tasks.
- Implemented and tested frontend features based on project requirements.

Projects

Blood Bridge – Blood Donation Management Platform – Java, Spring Boot, MySQL GitHub Live

- Developed a platform to connect blood donors with recipients based on blood group and requirements.
- Built RESTful APIs for donor registration, blood requests, and donor search.
- Integrated Spring Data JPA with MySQL for efficient data management.

Resume Builder – React, Java, Spring Boot, MySQL, Groq API GitHub

- Built a platform to create professional resumes with customizable sections and templates.
- Implemented ATS score analysis by comparing resumes with job descriptions using the Groq API.
- Developed REST APIs with Spring Boot and integrated MySQL for resume data management.

Technical Skills

Languages: Java, Python, JavaScript, SQL.
Frameworks & Technologies: Spring Boot, Spring Data JPA, React, REST APIs, HTML, CSS.
Core Concepts: Object-Oriented Programming, DBMS, Operating Systems, Computer Networks.
Database: MySQL.
Tools: Git, GitHub, Postman, Spring Tool Suite (STS), VS Code.
Soft Skills: Problem Solving, Teamwork, Time Management.

Certifications

- Infosys Springboard – Programming in Java.
- Cisco Networking Academy – HTML, CSS, JavaScript.
- HackerRank – SQL (Basic and Intermediate).

Achievements

- Solved 300+ Data Structures and Algorithms problems across different coding platforms.
- Secured a position among the Top 10 teams in the Generative AI Hackathon at VIEW College.

Hobbies

Badminton, Paper and Thread Crafting
